Section 7 – Preventive Measures

<p>PERSONAL PROTECTIVE EQUIPMENT</p> <p>GLOVES: use impervious (Rubber, Nitrile) gloves RESPIRATORY: None required under normal use EYE: Use chemical goggles or full face shield if working with bulk quantities ENGINEERING CONTROLS: None required under normal use. General ventilation usually adequate</p> <p>LEAK AND SPILL PROCEDURE: Before attempting clean-up refer to hazard data given above. Small spills may be absorbed with non-reactive absorbent (sand) and placed in suitable, covered, labeled containers. Prevent large spills from entering sewers or waterways. Contact emergency services and supplier for advice.</p> <p>WASTE DISPOSAL: Review federal, provincial and local government requirements prior to disposal</p> <p>HANDLING PROCEDURES/EQUIPMENT: N/A</p> <p>SPECIAL SHIPPING INFORMATION: None required</p> <p>STORAGE REQUIREMENTS: Keep out of reach of children. Keep container tightly closed. Store in fiberglass, polyethylene or polypropylene containers. Do not store in metal containers, especially aluminum. Storage in certain metal containers at temperatures above 60°C may result in Hydrogen Gas evolution. Do not store at temperatures above 48°C.</p>
